OUR COMMITMENT		

Synergy Medical’s mission is to develop, market and technically support automated systems for the pharmacy environment. Our technologies and services aim to be reliable and efficient tools that will enhance the safety of medication preparation while reducing the repetitive and monotonous character of manual labour.

Synergy Medical offers its clientele innovative products and quality services that comply with laws, regulations and best practices in the pharmacy industry. Its commitment extends to ensuring that the entire SynMed experience is pleasant and helpful for customers.

Synergy Medical strives to be an essential partner in the area of automation with its innovative products and services of unparalleled quality. We will review the goals of our quality insurance and continuous improvement programme on a yearly basis in order to keep meeting our clientele’s expectations.
